Subject Index

Algae
as an energy source. 246; as food. 403
Antitranspirants
for improved water use efficiency. 92
Cashew
soil conditioners for. 63
Cassava
as energy source. 78
Cereals
direct drilling in Scotland. 49
growth regulator developments. 371
simplified cultivation. 379
Citrus
hail damage. 305
Cocoa
pest control, historic. 85
Cotton
in Sudan. 33; production systems. 150; breeding and improvement. 152; water relationships. 159; pyrethroid insecticides. 167; diseases. 176; weeds. 184; harvest aids. 191; pest control, historic. 85
pests in S America. 198; Egypt. 204; USSR. 206; India. 208
appropriate research in Africa. 202
versus synthetic fibres. 210
hail damage. 305
small-scale pesticide applications. 345
electrodynamic spraying. 350
Croton
as an energy source. 246
Deserts
crops for energy. 246
research in arid zone development. 262
water harvesting in the Negev. 393
grazing in N Africa and Mid. East. 397
Development
malaria. 111
onchocerciasis. 116
trypanosomiasis. 123
tick-borne diseases. 230
United Nations University. 282
Diseases
of cotton breeding for resistance to. 152
of cotton. 176
viruses – therapy and defence. 288
Economics
agriculture; case-study, India, 99
cost of pest control, India. 208
cotton v. synthetic fibres. 210
trade protectionism. 293
Editorials
Letters to the Editor. 62
A commodity of good names. 110
Not by bread alone. 218
Aid, trade and appropriate technology. 274
History repeats itself. 318 (announcement)
Agricultural revolutions. 370
Erosion
hilly land, Mediterranean. 5
grazing, Sudan. 33; N Africa. 397
rainfall and run-off, UK. 41
soil conditioning. 63
minimum tillage in the tropics. 255
conservation tillage. 379
Forestry
role of mycorrhizae. 275
spruce budworm control, Canada. 327
Fruit
pest control, historic. 85
orchard spraying. 342
Grass
pests. 219
Groundnuts
in Sudan. 33
Growth regulators
cotton harvest aids. 191
for cereal crops. 371
Guayule
as an energy source. 246
Hops
pest control, historic. 85
Irrigation
of saline soils. 13; in Sudan. 33; in the Negev. 393
Jute
economics, in India. 99
Legumes
in Italy. 5; in N Africa.
Livestock
grazing, Sudan. 33; N Africa. 397
trypanosomiasis. 123
tick-borne diseases. 230
Locusts
current status. 224
Maize
min. tillage: tropics. 255; USA. 379
Minimum tillage
of saline soils. 13; Canadian prairie. 21
of tropical latosols. 27
of tropical vertisols. 33
for cereals, Scotland. 49
for maize, soya in the tropics. 255
potentials and problems. 379
Mycorrhizae
in crop production. 275
Oil palm
pest control, historic. 85
Ornamentals
eliminating viruses. 288
Pests
of cotton: Swaziland. 71; breeding for resistance to. 157; worldwide. 167; S America. 198; Egypt. 204
of cassava, soya, sugar cane. 78
of cocoa, hops, oil palm, rice, tea, top fruit. 85; of grassland. 219
leaf-cutting ants. 78; mosquitoes. 111; black-fly. 116; tse-tse fly. 123; locusts. 224; ticks. 230; spruce budworm. 327
Pest management
in Brazil. 78; and early insecticides. 85; in cotton, USSR. 206
Potato
economics, in India. 99
Pyrethroids
strategy for use. 71
metabolism and degradation. 135
as cotton insecticides. 167
Renewable resources
carbohydrates. 235; hydrocarbons. 246; single cell protein. 403
Residues
Tolerances for pesticides in food. 130
Rice
pest control, historic. 85
economics, in India. 99
Rubber
soil conditioners for. 63
Single-cell protein
from methanol. 403
Soils
adverse conditions, general. 2
management, Mediterranean hillsides. 5
saline soils. 13
tillage practices, Canada. 21
tropical latosols. 27
management, vertisol soils. 33
erosion, UK. 41
conditioning. 63
Sorghum
in Sudan. 33
Soya
pests. 78; minimum tillage. 255; weed control. 385
Spray application
pyrethroid strategy. 71
technology trends. 319
systems for safe use. 321
aerial ULV, Canada. 327
controlled drop application. 333
post-emergence herbicide applicators. 337
minimizing waste in orchards. 342
small-scale, in the tropics. 345
electrodynamic sprayer. 350
electronic control systems. 357
unconventional devices. 361
Sugar cane
in Sudan. 33; in Brazil. 78
as an energy source. 235
Tea
pest control, historic. 85
Tobacco
mosaic virus. 288
UN University
and agriculture. 282
Vegetables
soil conditioners for. 63
Viruses
therapy and defence mechanisms. 288
Weather
hail supression in Spain. 305
Weeds
in wheat, Canada. 21; in cotton. 184; bracken. 298; CDA herbicides. 333; post-em applicators. 337; selective post-em control. 385
Wheat
in Canada. 21; Sudan. 33; Scotland. 49
growth regulators for. 371
